General

Survey: Provide your input on the Northwest Ductless Heat Pump Project's Going Ductless resources

Over the next year, Northwest Energy Efficiency Alliance, or NEEA, anticipates retiring GoingDuctless.com and many ductless heat pump resources. To ensure you have access to valuable information about your programs, NEEA requests feedback on existing NW Ductless Heat Pump Project resources.

To provide your input, please take a few minutes to complete this [short ductless heat pump survey](#) and return it to Suzi Asmus at sasmus@neea.org by March 1, 2021. If you have any questions, please reach out to Suzi via email or at 503-688-5407.

Reminders

Summarizer update posted

BPA fixed a formula error that caused the Summarizer to display invalid values when checking low-income measures with no reported repair costs. BPA posted the updated Summarizer on Jan. 20. Contact your energy efficiency representative with any questions about the update. A customer utility discovered the error and BPA appreciates the feedback.

Updated: Rate Period Implementation Manual and special promotions extension

BPA is extending the effective period of the 2020-2021 Implementation Manual, or IM, through March 31, 2022. All existing savings and payments will remain in effect through that date...[More](#)
